This is a class which will help the student build confidence and teach them to see as an artist sees. After teaching drawing for 32 years my experience has taught me that the most important element to overcome when drawing is the fear of failure. Also to truly learn to see. This is what I teach, to learn to see and appreciate the beauty all around us. This class is for anyone who desires to draw from life and hone their skills whether a high school student or a professional artist. Come and have fun seeing and successfully representing the life around you! We will work in dry media on paper. Keeping a sketchbook is another help we will discuss.
